Four eyes are better than two
(providing improved flow and drainage)

Vesica Urology Ltd

OptiSmooth Mitro Key Features

- Developed specially for Mitrofanoff bladder drainage but can be used urethrally and for Ace procedures.
- Four drainage eyes help to improve urine flow and help reduce eye blockage due to debris and mucous.
- Smooth uncoated PVC nelaton catheter (requires additional water soluble lubrication).
- Available in 40cm and 50cm lengths.
- Flexible funnel connects securely to an external collection device such as a night drainage bag.
- Meaningful product codes OSM for OptiSmooth Mitro the next two numbers represent the catheter length and the final two numbers are the charrière size (catheter thickness).

OptiSmooth Mitro Product Range

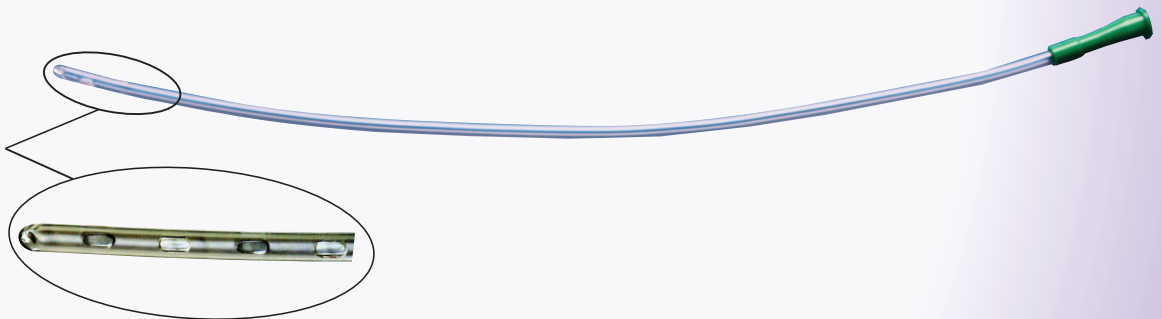

40cm length

Size	Funnel Colour	Product Code	PIP Code
CH08		OSM4008	390-8498
